

Early Learning

Agreement 14.4

Fee Payment Agreement

Additional purchased kindergarten session(s)

You have accepted additional session(s) for your child in the funded kindergarten program.

This will mean that you have one funded place as provided through the state funded kindergarten program and a place in which you will cover the full cost.

You agree to pay the additional costs as outlined with your service.

Due to funding agreements between Uniting and The Department of Education it is a requirement that every child be able to participate in one year of kindergarten.

For this reason, in the unlikely event that all places at the kindergarten are filled and a child requires a funded year of kindergarten we may need to ask you to leave the additional session group that your child is attending.

Uniting would return any unused funds to you.
